

# GRAB ATTENTION . . .

That's what this industry is all about.

Put a logo or branding message on something that's going to capture attention, make a statement, be unique and remain cost-effective.

That's exactly what we do at Hadrus Vinyl Graphics . . . provide creative, yet practical, cost-effective products that offer innovative and alternative marketing solutions for your most demanding clients.

Our philosophy is simple – treat everyone fairly, respect others' views and conduct business in an up-front, ethical manner. Thanks to your input, our award-winning customer service team is proud to be consistently recognized for their exemplary service.

- **PPAI Supplier Star / Gold Pyramid Award**
- **SAGE A+ Supplier**
- **ASI 5-STAR Supplier**

Providing solutions to challenging advertising/branding situations is a daily activity for us, and we work closely with our customers to ensure success. Combining our EZ STIK™ brand of innovative materials, outstanding print capabilities, incredible prices and over 35 years of experience allows us to place a brand or message virtually anywhere.

You'd think it was 1980 with the way setups are billed and handled by many in the promotional products industry. Setups are old and antiquated. We are doing our part to truly embrace the power of digital printing and pass the savings onto you. **You will see no setups on standard products at Hadrus Vinyl Graphics.**

Your success is imperative to ours, so rest assured we'll continue providing alternatives for practical, solution-based, purposeful products. Many of you refer to us as your best kept secret, which we value immensely.

**[www.hadrus.com](http://www.hadrus.com)**

**WHAT'S WITH ALL THE BALLOONS?**  
Well, with our home office in the Albuquerque, NM metro area, balloons are seen in the skies around here weekly (sometimes daily). Wind currents and air temperature are key to the successful flying of hot air balloons, and the Albuquerque area has the perfect combination of these elements.

Also, each October, all eyes turn skyward for the city's week long International Balloon Fiesta. Somewhere between 500 and 800 balloons dot the sky as part of an event that draws visitors – both balloonists and spectators – from all over the globe, making Albuquerque the hot air ballooning capital of the world.

When promoting a product, advertising a service, or reinforcing a brand, the key to success is to break through all of the daily sign clutter with unique, powerful visuals placed in the least expected areas.

Windows, walls, floors and doors represent valuable advertising real estate for messages; and yet, most people don't think about these alternative locations. Our EZ STIK™ line of specialty graphics make it easy to turn an average advertising opportunity into a dynamic and effective branding campaign.

EZ STIK™ specialty graphics are easy to self-install and come at a price that doesn't break the bank. They are an eye-catching, vibrant solution with options for short or long-term applications. Call to speak with one of our graphics experts and we'll guide you in choosing the correct product for your customer's next project.

**Visit [www.hadrus.com](http://www.hadrus.com) for listing of product sizes as well as surface application details and limitations.**

## **Finishing Cut Options**

While all EZ STIK™ graphics come standard with a square cut trim, many of the products can be finished with custom cutting, providing an enhanced visual appearance. Examples of the cut options are shown to the right.

## **Standard Square Cut**

Rectangle or square shape with straight sides and square corners.

## **Simple Shape Cut**

Circle, diamond, triangle, etc, and/or rounded corners. Additional charges may apply.

## **Cloud Cut**

A single-piece graphic that is cut to shape with a "cloud" margin around the design. Additional charges may apply.

## **Contour Cut**

A single-piece graphic that is cut to shape with no margin around the design (cut to color). Some limitations may apply. Additional charges may apply.

# EZ STIK™ Window Graphics

These are versatile, easy-to-apply, peel & stick graphics especially for glass-type surfaces.

**EZ STIK™ SMOOTH POP** – Custom printed, adhesive backed white vinyl graphic designed for branding and message marketing. Short-term use from one day to one year. Can be applied to a variety of smooth surfaces like retail windows, walls, doors and MORE! Interior/exterior. Peel and stick medium-tack removable adhesive. Square cut or shape cut.

**QUICK TIP:** For best results, apply graphic to a freshly cleaned glass surface. Clean application surface thoroughly with soap and water or common glass cleaner. Best practices: following cleaning, wipe glass surface with isopropyl alcohol (or equal alternative like denatured alcohol or rubbing alcohol) to remove any grease, dirt film or dust. Before removing the backing, place graphic in desired location and secure corners with masking tape. Slowly remove backing and methodically work from top to bottom, pressing the graphic to the glass with an even movement. Large graphics may require an extra set of hands.

**EZ STIK™ CLEAR VIEW** – Custom printed, “cling-type” clear polypropylene graphic enhanced with white ink. Its micro-suction technology provides a smooth, bubble free image which works well for entranceway doors and display cases. Optically clear. Back adhesion standard. Face adhesion available.

## "The Hadrus Magic Wand"

Sometimes it takes a little "magic" to break with tradition and think outside the box. The Hadrus Magic Wand can help empower your clients to do just that. Figuratively, place a magic wand in your clients' hands and let them point to wherever they would like to see their brand. Hadrus EZ STIK™ Graphics allow you to place your clients' logo virtually anywhere.

# DRY ERASE GRAPHICS

**EZ STIK™ ULTRA-DG** — It's a dry erase, peel & stick product that is printed full color and adheres to flat, non-porous surfaces including walls that have "orange peel" texture. It can be re-positioned dozens of times while retaining its hi-tack adhesion; and whenever it is removed, it leaves no sticky residue behind. Great for team building, brainstorming, planning, or training.

**QUICK TIP:** Spreading awareness of your brand is a key objective with giveaways. The more distribution channels you use the more likely you are to pique the interest of prospective customers. Having a die cut sticker of your logo transcends advertising as it becomes a brand piece. If you use humor or a special message, they may read it and have an actual emotional connection. When you use a high-quality vinyl sticker, you can be sure that it has staying power. You don't want something you give away with brand messaging to be low quality or short lived as seen with paper stickers. Vinyl stickers are waterproof and weatherproof which allows them to withstand all manner of abuse and still look awesome.

# EZ STIK™ Floor Graphics

Look out below! Our versatile, peel & stick floor graphics will stop them in their tracks. Easy-to-apply and removable. Whether for carpet, smooth floors, indoors or out, we have a floor graphic for every application.

**EZ STIK™ FLOOR SMOOTH** – designed for smooth hard flooring. Great for advertising that will be replaced with some frequency, such as sale items, in-store product promotions, school spirit, and lobby placement. Will last up to 3-6 months but economically-friendly to replace more often. Leaves no sticky residue behind when removed. Lifespan varies by environment and traffic. Two styles available: standard and heavy-duty.

**Hard Flooring:** Interior floors with a natural smooth polished or wax polished surface.

Visit [www.hadrus.com](http://www.hadrus.com) for surface application details.

FEHD-4848

**EZ STIK™ FLOOR SMOOTH Standard** – Removable adhesive graphic. Meets industry standards for slip-resistance. (Longevity: up to 3 months)

# ONE SOLUTION

## Our Top Selling Floor Graphic is Incredibly Versatile

**EZ STIK™ FLOOR MULTI-SURFACE** – a unique floor vinyl with a medium-tack, peel-and-stick adhesive backing designed for a wide variety of interior floor surfaces. It wears well and when removed, leaves no sticky residue behind. Designed for short-term indoor applications that require major impact where standard forms of advertising may not be practical or possible. Lifespan varies by environment and traffic.

**Hard Flooring:** Interior floors with a natural smooth polished or wax polished surface including ceramic tile, sealed (polished) concrete, linoleum, Vinyl Composition Tile (VCT), laminate wood flooring and marble.

**Carpet Flooring:** Floors with commercial-grade carpeting with a very low pile. Performs best on carpeting that has a tight loop surface texture. Not recommended for use on loose nap cut carpeting. Expect a shorter life when used on carpeting.

Visit [www.hadrus.com](http://www.hadrus.com) for surface application details.

# FLEET GRAPHICS

**FLEET GRAPHICS** are the sensible way to brand your company's vehicles. Studies have shown vehicle advertising has an incredibly low cost for its wide reach and high visibility. So, whether it's a dynamic design for the car door, a phone number on the tailgate, or a temporary use vehicle grade magnet, our line of Fleet Graphics offer the right solution at the right price.

**VEHICLE GRADE** – designed to last through the harshest environments while keeping your message crisp and dynamic. Easy to apply peel & stick, medium-tack adhesive, laminated vinyl that won't damage the vehicle surface.

- Vibrant full color print
- Calendared White Vinyl
- Straight Cut with Rounded Corners Standard (Custom Shape Cut Available)
- Laminated for scratch and UV protection
- Easy to apply to vehicle body or windows
- 5 year durability with clean, residue-free removal

**VEHICLE MAGNETS** – made from 30 mil rubberized magnetic material that is designed for use on flat vehicle surfaces like doors and body panels. Digitally printed in full color with a 4 mil laminate providing UV and scratch protection. Trimmed with straight sides and rounded corners. Easily removable and durable. *Pricing is per pair.*

Item	Size	Price/Pair (A)
<b>MAG-1812</b>	18" x 12"	\$50
<b>MAG-2412</b>	24" x 12"	\$70
<b>MAG-2418</b>	24" x 18"	\$100
<b>MAG-1212</b>	12" x 12"	\$50
<b>MAG-1616</b>	16" x 16"	\$90
<b>MAG-2020</b>	20" x 20"	\$120

**Magnet Installation:** Follow these simple tips:

- Apply clean magnetic signs to a clean surface (avoid application when magnet is cold and stiff)
- Press out all air pockets
- Remove, inspect and clean the signs regularly
- Store magnetic signs flat

See Magnetic Sign Care and Maintenance guide (provided with each order) for complete use and care directions or visit [www.hadrus.com](http://www.hadrus.com)

Magnetic signs will not work on vehicles that have non-magnetic body panels. It is the vehicle owner's responsibility to test the entire surface for proper magnetic adhesion.

# PAPER MERCH

**PAPER POSTERS and WRAPPING PAPER** have a traditional style that can't be beat. With state of the art manufacturing, prints are bright and vibrant making them an excellent canvas to promote, engage, and delight (possibly even surprise).

**PAPER POSTER** – Premium quality posters printed digitally direct on quality paper stock. Full color print is sharp and vibrant and scratch resistant. 100# text semi-gloss paper 6mil thick (this is a non-adhesive product).

ITEM	SIZE	1-4	5+	25+	100+	(A)

# Trade Show Displays

**Retractable Stands**  
**Step and Repeat**  
**X-Stands**  
**Table Tops**  
**Table Covers**  
**Table Runners**  
**Backdrop Pop-Ups**  
**Free-Standing**  
**Flags**

We understand that a display at an event is all about marketing & branding with the goal of having the attendees engage for more information. It begins with a

message that is clear and concise then portrayed visually in an eye-catching and engaging way. It ends with the message posted on a professional looking display that has a "Go Anywhere" attitude of easy set up and easy take down.

We offer a wide array of professional, time-tested and proven displays from unique to practical in the most popular sizes and styles. Whether it's for a book signing, table-top presentation, exposition event, or even just a simple message in the lobby to welcome patrons as they enter, our product solutions are effective, practical, and affordable.

## Selecting the Right Display

Answers to these questions will help you be aware of the needs and ultimately guide you (and your client) to the right trade show display.

- **How much information needs to be conveyed?**

Clear and concise messages work best. For more lengthy messages, consider spreading across multiple displays.

- **How much physical space is allocated for the display?**

From full size floor models to desktop miniatures, knowing how much space is available is key.

- **Where/how is it intended to be used?**

Setting up in a retail lobby or traveling to an event?

- **How long is it desired to last?**

Will it be set up and taken down frequently and need to endure that type of handling? Or, will it be stationary for an extended period of time?

**PROFESSIONAL RETRACTABLE BANNER STAND** – Designed for travel, portability, years of operation and durability. This model also allows for easy replacement of graphics by owner. We are so confident about this banner stand that it comes with a Lifetime Warranty.

The Lifetime Warranty covers all interior mechanical parts and retracting mechanism. If you ever experience difficulty or the unit fails to expand or retract – please return it. Repair or replacement is at discretion of Hadrus. Not responsible for damage due to mishandling.

- Wide-Base Brushed Anodized Aluminum

# Custom Event Tent

Our 10-foot Event Tent is a unique way to achieve 360 degrees of branding with a custom full fabric digital dye sublimation canopy and hardware package.

The canopy is printed full color on 6 oz. Weather Resistant Tent Polyester material. Your brand message can be displayed on each of the four peaks and valance panels (choice of white or black reinforcement strip). Our large format full color capabilities take artwork seam to seam.

Heavy-duty hex shape 40mm aluminum hardware gives the tent strength in outdoor installations. The telescopic legs allow you to adjust the height and the interior lattice expands the tent interior with the crank of a handle. Each leg has a foot plate ready to be staked to the ground. (Ropes, stakes, and standard carrying bag included with hardware).

## CUSTOM EVENT TENT

Prices are each

ITEM	SIZE	1	2-24	25+	(A)

Expandable Frame Hardware

Nylon Carry Bag

Optional Printed Fabric Back Wall

Optional Sand Bags (set of 4)

# Outdoor Retractable

**RBS ALFRESCO** – Outdoor retractable banner stand that has double-sided graphics with a robust weighted hardware design. The display can remain stable outside in light to moderate wind.

The durable center support pole has an adjustable height and can be used at any height from 40" to 80". At the full 80" height, it's stable in winds up to 15 mph. In areas with higher winds or gusts above 15 mph, the RBS Alfresco can be adjusted to at a shorter height to remain stable. At 72" tall, it can be used in winds or gusts up to 20 mph, and at 60" tall, it can handle winds of 30 mph.

- Double-sided outdoor retractable banner stand
- Vibrant print on HD scrim banner for extra durability
- Replaceable Graphics
- Extendable base stabilizers  
(Includes stakes to secure to ground)
- Removable center tank (fill with water / 20 lbs of weight)
- Black Zippered, Carrying Case
- Can be used both outdoors and indoors
- One year limited hardware warranty against manufacturer defects

## RBS Alfresco Outdoor Banner Stand

Prices are each

ITEM	SIZE	1	2-24	25+	(A)
RBS33A	33" x 80"	\$700.00	\$670.00	\$650.00	

When used outdoors on a hard surface where the ground stakes can't be used, it's recommended to use sandbags or other weights on the extended base stabilizers for greater stability.

Zippered carry case

Base with removable tank

Adjustable pole and ground stakes

# Trade Show Displays

**FABRIC POP-UP DISPLAYS** – quick and easy-to-assemble displays are designed with a pop-up mechanism and hook-and-loop attached fabric that allows you to use, then simply fold the entire unit for storage or transport. When your next event comes along, just expand the pop-up frame and your graphic automatically expands with it ... it's that easy!

- 9 oz. Tension Fabric
- Digitally Printed at 720 x 720 resolution
- 3 Sizes available
- 2 Popular Designs – Straight or Curved
- Easy to Setup and Take Down
- 100% Washable
- Includes Canvas Carrying Bag

# Banners

## Vinyl & Fabric

Small  
Medium  
Large  
Pole  
Mesh  
Break-Away  
Champion  
Fabric

You see them hanging at schools, retail businesses, car dealerships and churches, on fences at athletic fields and construction

sites and on light poles as you drive down the road.

Banners are everywhere simply because they are cost-effective solutions for promotional signage.

With Hadrus Vinyl Graphics as your wholesale partner, banners are easy to sell and make a great intro product for a new customer or an add-on product for existing customers.

We manufacture all types of quality banners with our state-of-the-art equipment coupled with our outstanding production team and award winning customer service. Whether you need 1000 banners for a nationwide advertising campaign or a single banner for a retirement party, we produce banners in both vinyl and fabric and almost any size.

### **Banner Hanging Tips — Best Practices**

A properly installed banner has tension evenly distributed across the entire surface where there are no wrinkles in the media. The banner is fastened to a structure using all of the provided grommet locations.

Due to their strength and affordability, heavy-duty zip ties are a popular method for installing vinyl banners (on a fence for example). One zip tie per grommet location and two zip ties in all corners recommended. As an alternate to zip ties, nylon rope or fence wire could be used instead.

**Maintenance** — Regular inspection of the banner is important. Tighten any connections that have loosened or replace any connections that may have broke or come undone. This will maintain a professional look and will help ensure the banner lasts.

# Banner Helpful Hints

## Cleaning Vinyl Banners

Keeping your banner clean is important. Environmental elements are inevitable, but a small amount of effort will keep your message looking great. We recommend the following:

### DO:

- Gently wipe banner with a clean and damp soft cloth.
- Use warm water.
- If soap is needed, use a mild, non-detergent cleaner.
- Rinse to remove any soap residue.
- Be sure banner is dry before storing.

### DO NOT:

- Use any abrasive cloth, cleaning pads or paper towels.
- Use any solvents or harsh chemical cleaners.
- Rub aggressively.
- Harsh chemicals, abrasive cleaners or aggressive pressure can damage or destroy the color print.

## Storing Vinyl Banners

Be sure your banner is dry before storing. Roll your banner (print-side in) then store in a clean, dry, indoor location away from direct sunlight.

# Adhesive Graphics Use

Application instructions are included with each order and for each product type. Instructions are also available at [www.hadrus.com](http://www.hadrus.com). Following the principles outlined in the instructions will lead to the best overall user experience.

## General Application and Removal

For specialty graphics to properly adhere, the application surface must be clean, free of oils, grease, dust, and debris. There must be no loose areas on the application surface (like loose paint, varnish, wallpaper, wall texture, etc.) as the adhesive could lift or disturb the loose elements when the graphic is removed. If the surface has been painted (or varnished) recently, the surface must be allowed to cure for at least 45 days prior to graphic application. Because surface conditions and properties can vary widely, it is ultimately the responsibility of the end user to test the bond and effective removal of the adhesive graphic from the chosen surface. Samples for this purpose are available by request.

**Extra removal tip:** In some instances, if graphic is not releasing easily, the additional use of warm heat from a hot air gun (or hair dryer) can sometimes help the adhesive relax allowing it to more easily remove from the surface. Be careful not to overheat. Excessive heat could damage the sub-surface.

# Banner Finishing Options

Choose from these standard and custom banner finishing options. Whether you choose a standard or custom banner, we always engineer our products with the highest craftsmanship and uncompromising quality you expect at prices you can afford.

	<b>Welded Hem Standard:</b> Unless otherwise requested, all banners come finished with 1" machine welded hems. Welded hems are stronger than traditional sewing or double sided tape, providing a double-strength layer of material for other finishing options such as grommets.
	<b>Metal Grommets Standard:</b> Banners come standard with metal grommets in all corners and spaced evenly along the edges every 2-3 feet <b>Metal Grommets Custom Spacing Option:</b> Banners that require more grommets than "standard spacing" and/or for banners that require special or specific grommet positioning. Custom spacing must be specified at time of order. <b>Additional per banner: \$20.00(A)</b>
	<b>Wind Slit (Vent) Option:</b> Banner face is cut with several "half-moon" slits which are intended to lessen pressure on the banner caused by wind. This option allows the banner to withstand some measure of wind but will also lessen the overall life of the banner. Wind slits must be specified at time of order. <b>Additional per banner: \$20.00(A)</b> Note: If wind is a concern, consider a mesh banner on page 9.
	<b>Pocket Option:</b> Banners can be finished with an optional pocket instead of a standard hem. Designed for sliding a long rod through a "pocket" along the top and letting the banner hang. Pockets can be along one or two edges and must be specified at time of order. Sizes available: 3" pocket (for rods up to 1" O.D.) 4" pocket (for rods up to 1-3/4" O.D.) <b>Additional per banner: \$20.00(A)</b>
	<b>Reinforced Hem Heavy-Duty Option:</b> Nylon webbing is machine welded into the banner hem to increase strength. Recommended for added safety and security over roadways or areas subject to windy conditions. Reinforced Hem must be specified at time of order. <b>small - large additional per banner: \$50.00(A)</b> <b>x large - xx large call for quote</b>
	<b>Zip Ties:</b> Banner zip ties are 10-inches in length. Black and UV resistant for outdoor use. One zip tie per grommet location and two zip ties in all corners recommended. <b>\$0.50/tie(A)</b>
	<b>Rope Leaders Option:</b> Rope leaders are available in any length (5-foot length is most popular). Specifying length and quantity per banner is required. Diamond braid multifilament rope has a break strength of approximately 400 pounds per inch. <b>add \$1.00 per linear foot of rope (A)</b>
	<b>Rolled for Shipping:</b> Most banners (small, medium and large) are rolled for shipping. Any banner longer than 50 feet and all XL and XXL banners will be folded. However, if rolling is required, options are available depending upon size. Call for details.

# Ordering

**Placing an order with Hadrus** – We have a team dedicated to processing orders and artwork.

Please send your orders directly to [orders@hadrus.com](mailto:orders@hadrus.com)  
Please send any digital art files to [art@hadrus.com](mailto:art@hadrus.com)

**You will receive an email in return  
acknowledging receipt of your order.**

Please note: Submitting orders directly to any other Hadrus email can result in a delay. **For fastest service, submit orders to [orders@hadrus.com](mailto:orders@hadrus.com).**

All orders must be submitted via email specifying the product(s) ordered, item number, quantity, ship-to address, bill-to address, and requested delivery date (if applicable). Artwork should be submitted at the time of order and refer to PO.

## General Information

We are wholesale to the trade only. If you are in the business of print re-selling and not already using Hadrus, we should talk. Account inquiries can be sent to [sales@hadrus.com](mailto:sales@hadrus.com)

**Place an order:** [orders@hadrus.com](mailto:orders@hadrus.com)  
**Send artwork to:** [art@hadrus.com](mailto:art@hadrus.com)  
**Pricing inquiries:** [quotes@hadrus.com](mailto:quotes@hadrus.com)  
**Inquiries on current orders:** [customerservice@hadrus.com](mailto:customerservice@hadrus.com)

### Pricing:

Quantity pricing discounts are based on the quantity of a single design. Multiple designs used within a quantity is possible but may be subject to a copy change fee. All pricing is subject to change without notice. Custom quotes are available upon request and are valid for 30 days. Please send all quote inquiries to [quotes@hadrus.com](mailto:quotes@hadrus.com).

### Terms:

Payment is expected at time of order shipment. We accept MasterCard, Visa, Discover and American Express or company check. Net 30 terms are available with approved credit. 50% deposit may be required for larger jobs.

### Production Time:

Standard production time is 3-5 business days after acknowledged receipt of production-ready artwork and PO or proof approval.

### Minimum Order:

See individual product price grids for minimum order quantities and rates. Quantities are determined by individual product and may not allow variation. For quantities not listed on the grid, contact for pricing.

### Special Finishing Requests:

Product pricing in this catalog includes standard finishing only. Special finishing outside the product description is subject to additional charges. All finishing services must be clearly specified at time of order.

### Production Rush Service:

“RUSH” service is available based on current production schedule and difficulty of requested project. Additional handling fees will be incurred, generally starting at \$100.00(A). We highly recommend calling for a quote to determine availability and cost.

### Shipping:

Orders are shipped via FedEx Ground unless otherwise indicated on PO. Drop and/or split shipments must be indicated on PO and will incur additional charges. If specific carrier preference is not included on order, Hadrus will use the most direct or least expensive method at our option. Address corrections, service changes and other related service fees assessed by the shipping carrier will be passed onto the distributor.

### Returns/Replacement:

All products are custom printed to your specification; therefore, request for return or replacement is available only for those items found to be defective or malfunctioning, imprinted incorrectly, or a result of a finishing error. For products other than those with warranties clearly stated, claims must be made within 5 days of arrival. Please contact customer service for a RMA#, returns will not be accepted without authorization.

### Product Guarantee:

All products are manufactured using the highest quality products designed for a specific purpose. We guarantee your product to be free of defect and correctly printed, based on artwork we've received. We will not be responsible for typical wear, accidents or misuse due to improper handling or applications other than intended.

### Product Liability:

Hadrus Vinyl Graphics products are industry standard banners, signs, displays, and adhesive graphics; and as such Hadrus Vinyl Graphics in no event shall be liable for any direct, indirect, punitive, incidental or special consequential damages to individuals or property as a result of ownership, possession or use of any product designed, manufactured, sold or delivered by Hadrus Vinyl Graphics.

# Artwork Information

Please adhere to these guidelines for the best results. Artwork can make or break your project. As a value added service, our staff reviews your art to help ensure it will print well. If we see any conflicts or something out of the ordinary, we'll let you know.

## Preferred Format And Resolution:

- Design your artwork at 1/4 scale at 400 dpi or full scale at 100 dpi
- Make the size of your art board the same size as your design
- Set file color space to CMYK color mode
- Use CMYK values for ALL colors (not Pantone, PMS # or RGB)
- Use "rich black" for your blacks (C: 60%, M: 40%, Y: 40%, K: 100%)
- Convert all fonts to curves
- Flatten the artwork (no transparency layers, no hidden layers)
- Vector art is requested as it will produce the best resolution and color accuracy for your print. Vector art can be scaled to any size with no loss of resolution.
- Save file as a press quality PDF or a high quality JPEG

**Pro Tip:** Open the PDF/JPG file you just made and double check to make sure it looks the way you were expecting (zoom in 300%-400% and examine it closely)

Files not set up according to the above file setup guidelines are subject to an additional pre-press processing and handling service fee.

## Color Quality:

We print full color CMYK (4-color process). Please be sure all files are submitted in CMYK color mode (as undesirable color shifts can occur when converted from PMS or RGB). Even though we don't print actual PMS colors, we can get pretty close to most PMS colors. Although we regularly update our printer profiles to maintain the greatest color accuracy possible, color variations will occur between different media types such as banners, specialty graphics and fabric products printed using dye sublimation.

## Imprint Color:

Simply provide a PMS number as an "imprint color" reference and we'll check over the art to make sure the CMYK color values are going to be in the ballpark. There is no charge for this value-added service, just make sure it's plainly communicated at the time of order or on the PO (i.e. Imprint Color: PMS 195).

## Color Matching:

If it's a color critical, absolutely must match as close as possible type of color, then you might want to pay for our "color match" service. We will carefully get the CMYK colors dialed in to more closely resemble the identified PMS color. We even print samples on the product media -- which can be sent to you if you or your client want to see the color first hand for final approval. This color match service costs \$70(A) per color and usually takes about two days to process. Contact for details.

## Submitting Artwork:

**Files less than 10 MB** – art@hadrus.com

- Please include PO # in the subject line.

**Files larger than 10 MB** – upload via our "SEND ART" link in the resources section at [www.hadrus.com](http://www.hadrus.com)

- Please include PO # in description line.

## Proofs:

Proofs are available by request for an additional \$20.00(A). Revisions are additional. Proofs of multiple designs will generally be more depending upon complexity and number of designs. Contact customer service with your project circumstances.

## Graphic Design/Assistance:

Artwork that is NOT print-ready is subject to a pre-press design service fee. Billed at \$120.00(A) per hour. Half-hour minimum.

# Quick Design Tips

Here are a few things to keep in mind when preparing your artwork.

- Banners – keep all important text and graphics at least 1.5" at full scale away from the edge to ensure no part of your message is lost when hems and grommets are added.
- For greatest visibility use text colors that have high contrast against the background.
- For distance visibility/readability use 1" of text height for every 10' of distance. Example: If you want your message visible from 100' away, make sure your text is at least 10" tall.
- When in doubt, choose high-contrast colors and large, bold block font.
- Small Graphics – for the best readability of small text, use a block style font that is at least a medium-weight and is no smaller than 8pt. 10pt is recommended.
