

Corrugated signs are made from fluted polypropylene plastic sheets. They’re water-proof and resistant to most weather conditions.

- 4mm fluted plastic sheeting
- Printed full color, one-sided or two-sided
- Display using wire H-stake (sold separately)
- Durable and weather resistant
- Small quantities available

Whether you know them as corrugated plastic or coroplast, these are fluted plastic signs that have long been the yard sign industry material standard. Coroplast signs are affordable, lightweight, durable, and portable. You can use coroplast signs virtually anywhere, to advertise any type of message. Mounted on wire stakes, coroplast signs get the attention of potential customers, clients, or even just passers-by.

- School Spirit Signs
- Sale Events
- Event Directionals
- Way Finding
- Advertising / Promotion
- Sponsorships

Here’s proof that simple is sometimes better. Coroplast signs are great for posting a message outdoors, right where you need it.
